## PUBLIC PARTICIPATION

Gary Pavlinich has nothing for the meeting tonight. Deb Hickman would like to know whey the grass at 4705 31st Avenue is very high? No one has lived there for years; Peggy will check into it. She would also like to know information regarding the excavator accident last month. Mr. Zachodni makes no comment currently. Also, she asked why the residents were not notified when the one call was made with markings on the road. Mr. Zachodni stated that New Brighton has right away, and this was an emergency, he did state there is instability with the hillside and engineers may have made the 811 call regarding the right away to clear for emergency, the right of way is New Brighton's right of way. Ms. Hickman also states there is Japanese knotweed growing and it is very large on 31st Avenue and she is concerned about the future if another fire should occur, if this is cleared the fire trucks could use for right of way for emergency. Mr. Zachodni explains the fire trucks are not permitted to use, fire trucks cannot go off road. Rhonda West is asking about the water on 42nd Street when there is heavy rain, water comes into basements of homes. She would like to know if the road could be regraded to go into drain on the other side of the road. She states her brother has offered to use excavator to regrade. Mr. Zachodni will talk with the Roadmasters and will look at the road again, the road is high due to years of paving.
Mr. Joe Budicak asked the Supervisors for and executive session following the meeting.
