PUBLIC PARTICIPATION

Deb Hickman has a few things for tonight, 1. The high grass at 4705 - 31st Avenue, 2. At the corner of 47th Street and 31st Avenue there is a branch hanging down and with cars flying thru intersection visibility is obscured. Mrs. Griffith states she did send letter to 4705 31st Avenue regarding the grass and Mr. Zachodni stated he will send the Roadmaster to cut the branch. Justin Stone is speaking on behalf of Darlene Stone, 3314 - 47th Street regarding the water way from catch basin and they noticed that possibly someone was doing work as they noticed brush was cleaned out and some items in the yard were moved. He states the outflow was touched and asked if the hillside was still sliding? Mr. Zachodni confirmed that no one was doing work there from the township. As far as the slide of the hill is concerned, the engineers are overseeing the slide. Mr. Stone also states that per the engineers' report it states there are a lot of trees on hillside, Mr. Stone states there are no trees, he also states that the discharge of the storm drain with heavy rains causing heavy rocks to move. Mr. Zachodni explained they are more than welcome to get their own attorney to give another opinion. Deb Hickman asked if the fire at Sams auto of 47th Street about 5 /6 years ago may have contributed to slide due to all the water running down to drain on 34th Avenue/47th Street in front of residence at 3314 - 47th Street. Mr. Stone feels the inlet on 34th Avenue/47th Street with all the heavy rain has caused the home to slide. The Stones residence was condemned due to the hill slide, which the engineers were able to see when they were investigating the cause of the hillside.
